The Adair County News.

After a few weeks of delay I will again try and write a few lines to your valuable paper.

This is election day and believe me it is cold and the ground is almost covered with snow and if it keeps on it will be a big snow yet.

The work is a little slack at present but we are looking for a big opening soon. Of course there is plenty of work such as railroading, mining and road building but that don't suit in bad weather.

I will write you a few line on the old silver dollar, it will hit us pretty well under these high prices:

THE OLD SILVER DOLLAR. How dear to my heart are the days of my childhood

When everything else is but dear to purse.

Those days of cheap collars and shoes for three dollars, They float in my dreams while I fashion this verse.

To day it is puzzling the most learned scholar to know how to buy when each price is a par, and fondly I think of the old silver dollar—the faithful old dollar that once went so far.

The hundred cent dollar, the go get-it dollar, the old silver dollar that once went so far.

This isn't a joke, though we sing of it lightly;

For life is no jest mid the stress of today,

We gaze at a dollar, we see it shine brightly,

And then for some trifle we pass it away.

It wont buy a fig leaf—at least not a big leaf—it wont buy a button, with buttons at par.

O what has become of the old silver dollar—the faithful old dollar that once went so far?

The dust-covered dollar; the rust covered dollar, the rust covered dollar that once went so far.

So I will close by saying hoping to see a letter in the news from all parts of the county.

I am yours truly; Elbert Wooten.

From Detroit, Michigan.

Adair County News:—

Thinking that many friends would like to hear from us thro your paper. I will write a few lines.

We have been in Detroit about six months and sure like this country fine. We have taken many trips around over the city, and it sure is a beautiful place. Detroit is fourth in size to any city in the world, 84½ square miles. This city is noted for its many magnificent hotels. It is estimated that there is an investment of almost \$40,000,000 in hotel property. In 1918 the population of Detroit was 989,699. In 1917 the population was 914,896 an increase of 71,803 in one year. Detroit has 104,000 public school pupils. It has 161 public schools and 75 private schools. It has eleven miles of river frontage. It has 38 public parks, 32 theaters, 180 moving picture shows, 97 city hospitals. Detroit is the largest summer resort in America. People come from all parts of the nation to

enjoy the beauty of its island parks, inland lakes, wonderful water trips and its ideal climate conditions. Detroit possesses that rare combination of a city of beauty and one of industry: a class of industry that calls for the worlds most skilled workmen, a beauty that has caused visitors to exclaim: "Truly a city where life is worth living." Detroit river is unique in one respect. It has no tides. It is never flooded and never dries up, but with an almost constant current flows on "as silent and as ceaseless as the grace of God."

Detroit has about 2,700 manufacturing plants, 31 automobile manufacturing plants and 120 automobile accessory plants. The roads about Detroit are not surpassed in any part of the world. Wayne county in which Detroit is located is spending millions of dollars in concrete roads. The country drives, which extend in every direction are most picturesque. Many times have we visited the Grand Belle Isle Park, an island of about 707 acres, lying in Detroit river. This beautiful island park, owned by the city, is said to be unequaled in the world. Its special attraction includes an aquarium with all kinds of fresh and salt water fish. There we saw every species of fish imaginable and some of the largest turtles my eyes ever looked on. They were two and one half and three feet across the back, and their legs were in proportion. They sure were scary to look at. There we saw all kinds of wild animals from all parts of the world. The largest brown bear I ever saw. There never was a circus show that passed through Kentucky that had the many different animals we find there in the park. The Horticultural building with plant life gathered from the four corners of the world. One of the best Zoological gardens in America. The most beautiful flowers our eyes ever looked on. In the green house there are large clefts of rocks covered with ferns and flowers and the water trickling down on them all the time. In there we saw the banana tree in bloom, and some with young green bananas on them. There are all kinds of cactus in the world. It sure is beautiful. The Park was crowded with people each time we were there, looking and wondering at the beautiful things. One that has never visited such a place, can't imagine the beauty of this Grand Park. It has fine bathing beaches, public bath house with 800 rooms, Yacht and boat clubs, miles of canal for boating, a five and one-half shore drive, band concerts and other attractions. It is owned by the city of Detroit and operated for the people.

We have been to Windsor

Canada several times. Windsor is a pretty little town just across Detroit river, really a part of Detroit. We also took a 25 mile ride out in Canada to see some of its rural life. We sure saw some fine farms on which were crops of corn, wheat and tobacco. We also saw some fine orchards, loaded with nice fruit. Canada has some very fine pasture and grazing lands. It also has some fine horses, cattle, sheep and hogs.

The Michigan State Fair of 1920 beat the record of any Fair ever before, both in attendance and amusements. The stock was all sure fine and the display of fruits, flowers and other things were grand. There we saw Myron Tinney's fatal fall from an airplane as he was trying to change from his plane to another. His hand was seen to part from the ladder and he fell 500 feet, his neck and back being broken before an audience of 200,000 people. The eighteen year old girl that made the same performance successfully just before his fall, recently fell from a plane into Lake Michigan.

Calvin Cox, who married our daughter, Mary Ruth, last April owns a beautiful home on Maine Street and has it furnished with every necessity. Calvin is a hustling boy, and we are proud to say that he and Mary Ruth are getting along well. He is making \$190 per month, working at the Dodge Motor Co. James Cox has a good position and is making money. He, too, owns a beautiful eight room house in Jackson, Michigan. Pearl, James and Calvin's sister, has a position and is liking fine. Ned Baker, of Burkesville, who is with us, is also working at the Dodge Motor Co. He is making good wages and is liking fine. Curt Winfrey likes his work at the Dodge. He says it is a right smart of a play job, but he gets his 65 cents per hour just the same. I am still working at the Crowley, Milner & Co.'s big department store at \$60 per month. There are between twelve and fifteen hundred employees. It is sure some store. Trusting this will find space

REMEMBER to ask your grocer for Calumet Baking Powder and be sure that you get it—the Indian head on the orange label. Then forget about bake day failures. For you will never have any. Calumet always produces the sweetest and most palatable foods. And now remember, you always use less than of most other brands because it possesses greater leavening strength.

Now Remember— Always Use

CALUMET BAKING POWDER

There is no waste. If a recipe calls for one egg—two cups of flour—half a cup of milk—that's all you use. You never have to re-bake.

Contains only such ingredients as have been officially approved by U. S. Food Authorities, is the product of the largest, most modern and sanitary Baking Powder Factories in existence.

Gluten gives flour a good part of its food value—the element that nourishes the body. To be sure of getting it, use only pure baking powder with plain flour, (not self-rising flour).

Calumet Columbia Muffin Recipe
—4 cups sifted flour, 4 level teaspoons Calumet Baking Powder, 1 tablespoon sugar, 1 teaspoon salt, 2 eggs, 2 cups of sweet milk. Then mix in the regular way.

in your valuable paper, and wishing it much success, I close.

Mrs. J. C. Winfrey.

Prof. Barnes, principal of the Middlesboro High School, was shot and wounded fatally, by Adolphus Oaks. It is reported that Prof. Barnes had whipped Oaks' sister, a high school student last Thursday, which presumably was the cause of the shooting. Barnes had tendered his resignation to the Board of Education and had planned to leave the city Saturday. Oaks is in jail.

The first merchant ship flying the German flag to come to the port of New York since July, arrived here Thursday. The vessel which marks the resumption of trade with Germany under the flag of that country was the Sophie Rickmers, a steamer of 4863 tons, built in Germany during the war. She is flying the old German merchant marine flag.

A Fine Record.

A woman was famous at the local market for her ducks, but one day she sold a tough bird to her neighbor, Brown. As Brown paid a big price for the duck, he called on the vender right away with anger in his eye.

"What do you mean by selling me such a duck as this," he said, "especially as I am one of your oldest neighbors?"

"Why, was there anything wrong with it?" inquired the stall keeper.

"Wrong!" exclaimed the other. "Why, it wasn't good at all."

"Well, it ought to have been," declared the dame, conclusively. "It won the first prize at the poultry show for 11 years in succession."

Rubbed into the skin for rheumatism, neuralgia, contracted muscles, sprains or lameness, Ballard's Snow Liniment goes right through the flesh to the bone, easing pain and removing the cause. It is a powerful pain reliever. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by Pauli Drug Co. Adv.
